Essential Skills to Work in the Teaching Industry

The objective of this course is to prepare participants for employment and support those new to the teaching sector in developing their knowledge and gaining relevant qualifications. The qualifications are applicable to a variety of work environments.

The Level 3 Teaching Assistant course will provide participants with an insight into how to effectively work in the classroom environment. Whether it is primary, secondary or a SEN school setting, this course covers all the important aspects needed to pursue employment in the industry.

Whether someone is new to the industry, currently working in a related role and looking to expand their knowledge, or aiming to enhance their CV, they can get started right away and gain essential insights into the role of a teaching assistant.
