

WE MAKE A POSITIVE DIFFERENCE TO PEOPLE'S LIVES - EVERY SINGLE DAY.

We have impacted the lives of over one million people since 2018.

We use our experience to change lives. One individual at a time. And in the same way, we're going to change society.

Our committed teams work across Britain to deliver a range of public services, including employment support, skills training, independent living, prison education, starting a business, and support to help employers grow.

Our vision is for a society where every individual is able to reach their full potential, regardless of their background or circumstances.

Our **mission** is to lead the way in making this future a reality: working directly and indirectly **for** those who **need** support and **with** those who **can** support, to ensure that every organisation in our society strives to increase the value it brings to that society, to our communities and to the lives of the individuals in them.

We are PeoplePlus: We lead the way in creating social value

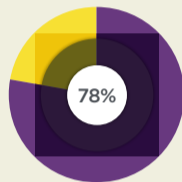

Our Social Recruitment Framework (SRF) helps SME's and large national employers realise social value through social recruitment.

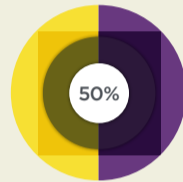

Social Recruitment Framework

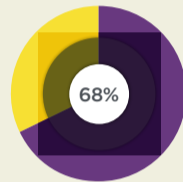

Social Recruitment is critical to tackling generational inequality in the labour market. We recognise that by using our employability and skills expertise and partnering with government employers and local organisations we can make a real difference to individual lives, communities and wider society as we build back in a Covid-19 world

of candidates who are offered jobs **commence employment**

of candidates who attended interviews have been **offered employment**

of candidates who attended courses were **offered interviews**
