Cookies Policy

What is a Cookie

A Cookie is a small text file that is downloaded onto a device when the user accesses a website. It allows the website to recognize that user's device and share information about the user's preferences or past actions.

Cookies allow us to see which pages have been viewed and how frequently they have been visited. Cookies also help us to make our website more user friendly.

Most web browsers automatically accept cookies, however, you may set up your browser to notify you when you receive a cookie which will give you the opportunity not to accept it. If you disable cookies then you may not be able to access certain features of our website. PeoplePlus websites use the following types of cookie:

- **Necessary Cookies** - these help make a website usable by enabling basic functions like page navigation and access to secure areas of the website. The website cannot function properly without these cookies.
- **Preference Cookies** - these enable a website to remember information that changes the way the website behaves or looks, like your preferred language or the region that you are in.
- **Statistic Cookies** - these help website owners understand how visitors interact with websites by collecting and reporting information anonymously.
- **Marketing Cookies** - these are used to track visitors across websites. The intention is to display ads that are relevant and engaging for the individual user.
